

Do you agree we need to make it safer and easier for children to walk and ride a bicycle to school?

Australian children are less likely to walk or ride a bicycle to school than children from most other OECD countries.

Children walking or cycling to school

Strongly disagree 1 2 3 4 5 Strongly agree

To make streets easier to cross, are you willing to consider the following:

Select all that apply

- More crossing facilities, e.g. raised crossings ("wombat crossings")
- Reducing traffic speeds in built-up areas
- Reducing car traffic volumes
- Other:
More pedestrian safe measures such as separated cycleways, pedestrian refuges, opportunities for increasing verges and installation of raingardens

To protect neighbourhoods from "rat running" do you support low car traffic neighbourhoods?

Low traffic neighbourhoods prevent rat running by only allowing local traffic and encouraging walking and cycling. Photo source: Mark Sutton, cycling industry news.

In order to make it safer for children to walk to school, do you support 30 km/h limits in neighbourhoods?

International best practice is 30km/h for local streets. Read more about the benefits of 30km/h streets and myth busting <https://theconversation.com/busted-5-myths-about-30km-h-speed-limits-in-australia-160547>

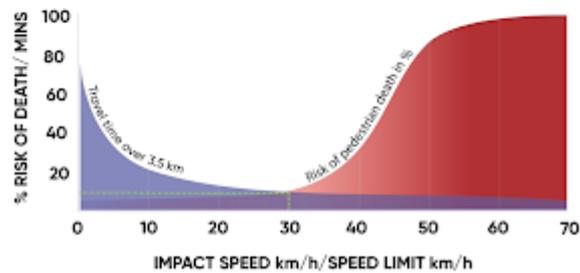

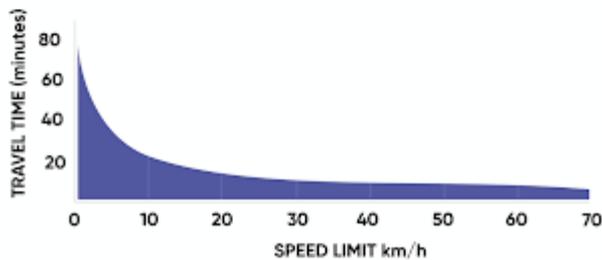

Travel time urban area

	Average Speed	Travel time for 1km	Travel time for 3.5km
	5km/h	12 min	42 min
	15km/h	4 min	14 min
	21km/h	2.9 min	10 min
	26.4km/h	2.3 min	8 min

Trees provide shade and improve the walking environment, do you support increasing tree canopy over walkways?

Strongly oppose 1 2 3 4 5 Strongly support

What are your thoughts about improving walkability in our LGA?

We are densely populated with pressure on open space. I support more pedestrianisation/ traffic calming measures/wider verges/ pedestrian plazas/ lower speed limits. Investigating underused reserves and old pathways and opening them up to the public.

Please specify any council motions that you supported or proposed to make walking better in our LGA (please provide a description, date and/or motion number).

Pedestrianisation and Traffic Calming in Rose Bay, Pedestrianisation and exploring laneway activation in Double Bay, Separated Cycleway Rose Bay to Double Bay, Lower Speed limits in Double Bay, Watsons Bay tramway pathway upgrade, exploration of Paddington cycleway/ greenway, Bondi to Manly walk implementation with signage in municipality, upgrades to Christison Park for more accessible walkways, heritage listing of Cooper Park to maintain parklands and walkways in Cooper Park, McKell park accessibility upgrades - all proposed or supported in this term of Council 2017 - 2021
